

**COLLECTOR'S SURVEY FORM FOR GUNS MADE BY
TEXAS LONGHORN ARMS, INC. AND GROVER ARMS, INC.**

Last revised 1/11/2010

Dear Collector:

Thank you for participating in this research survey for Texas Longhorn Arms, Inc. and Grover Arms, Inc. handguns. Due to the loss of most of the factory records, we must rebuild the knowledge base of how many guns were built and in what configuration by documenting existing guns in detail. Please fill in all the information you can. If you find you have a part which does not fit the established types shown below, we very much want to know about it. Please include a description and picture(s) or drawing of the part in question so that we can add it to future editions of this form.

Please return the completed form to me via the email address below. If you wish to mail a hard copy, please contact me and I will give you my mailing address. If you have any questions or wish to discuss your gun(s), please feel free to contact me any time. Thank you again for helping all of us better understand these "Good Guns from Grover."

Warmest regards,

Stephen M. Webb

YOUR CONTACT INFORMATION

We would greatly appreciate knowing how to get in touch with you if we have further questions on your gun. Your personal contact information will in no way be used for any other purpose unless you give prior consent.

Name: _____
Email Address: _____
Daytime Phone Number: _____
Address: _____

BASIC DATA

Serial Number:

Model:

Caliber:

Extra cylinder caliber(s):

Finish:

Barrel Length:

Stocks/Grips (One piece? Two piece?
Material?):

Fixed or Adjustable Rear sight:

Are you the original owner? _____

Date gun was ordered: _____

Date gun was received: _____

Was the serial number special ordered? _____

What parts are serial numbered? (Typically, the serial number is found on the main frame, the cylinder, the grip strap, the grips, and the triggerguard. See also assembly numbers below): _____

What parts have assembly numbers? (Assembly numbers are numbers used to keep parts together during manufacture that do not match the gun serial number. Assembly numbers may be found on the hammer, grip strap, trigger guard, cylinder, and other parts. Not all guns have them.) _____

Are the chambers numbered? (If so, you will find the numbers 1-6 stamped by each chamber, usually on the breech face of the cylinder): _____

Location of Model Name (usually on the top or left side of the barrel): _____

Location of Texas Longhorn Arms address (usually on the topstrap or on the right or left side of the frame): _____

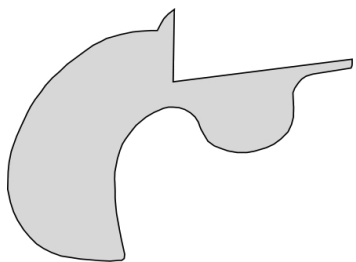

Exact text of company address: _____

Special order features (ex: factory wooden case, barrel band front sight, ported barrel, engraving, backstrap inscription, etc): _____

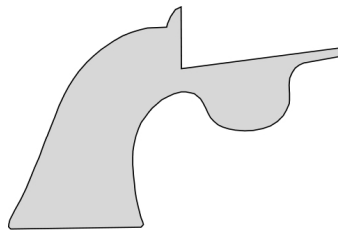

PARTS DETAILS:

Grip Frame: _____ (Please select from the list below. If the gun has a grip frame that doesn't fall in these categories, please sketch it or include a picture.)

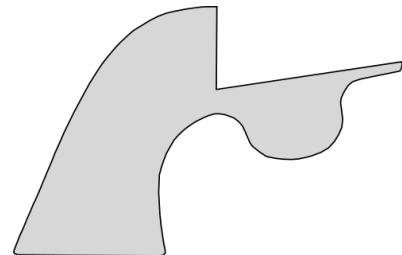

Birds Head – usually associated with Border Special

Army – usually associated with South Texas Army and West Texas Flat Top Target

Number Five – usually associated with Improved Number "Five"

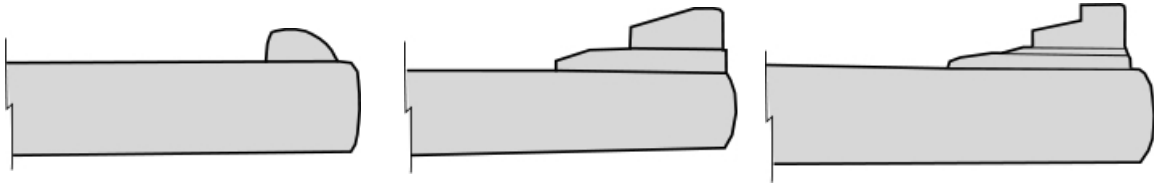

Front Sight: _____ (Please select from the list below. If the gun has a front sight that doesn't fall in these categories, please sketch the front sight or include a picture.)

Type 1 – usually associated with Border Special and South Texas Army

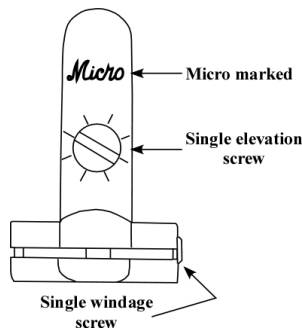

Type 2 – Baughman ramp usually associated with West Texas Flat Top Target

Type 3 – usually associated with Improved Number "Five"

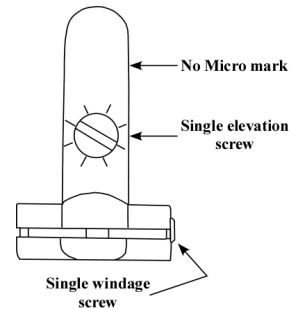

Adjustable Rear Sight Style: _____ (Please select from the options below. If your adjustable rear sight is a different style, please draw it or take a good photograph.)

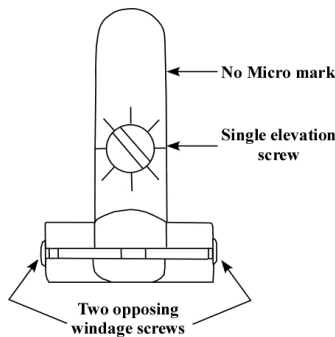

Type 1

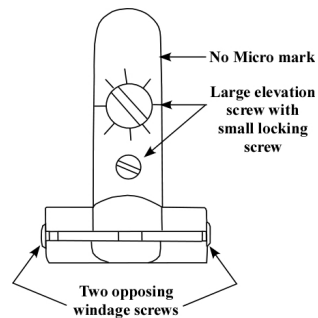

Type 2

Type 3

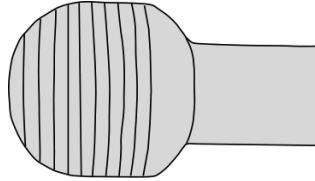

Type 4

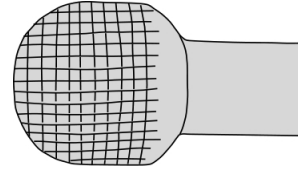

Hammer Checkering: _____ (Please select from the list below. If the hammer checkering on your gun doesn't fall in these categories, please sketch the hammer or include a picture.)

Type 1

Type 2

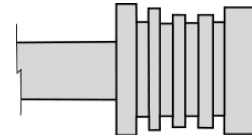

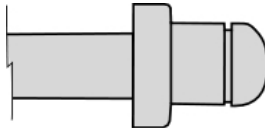

Base Pin Head: _____ (Please select from the list below. If the base pin head doesn't fall in these categories, please sketch the base pin head or include a picture. Please note there was mixing of base pin styles between guns. For example, one may find an Improved Number "Five" base pin on a West Texas Flat Top Target.)

(The guns shown below are the ones usually associated with the base pin styles in that row. However, there are examples of mixing of styles across gun models. Please identify the base pin on your gun using the appropriate model name and type from this chart regardless of which model gun you have.)

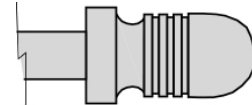

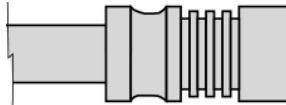

Type 1

Type 2

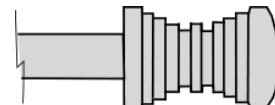

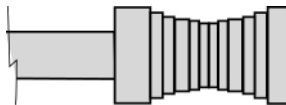

Border Special

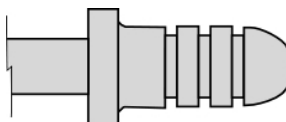

South Texas Army

Improved Number "Five"

West Texas Flat Top Target
